

SHALINI AMALA D

ASPIRING SOC ANALYST

<https://www.linkedin.com/in/shalini-amala-d-290818381/> | +91 89036 93194 | shaliniamalu2007@gmail.com

PROFILE SUMMARY

Aspiring cybersecurity student with a strong interest in defensive security and SOC operations. Building a solid foundation in networking, operating systems, and core security concepts. Actively developing skills in threat detection, system monitoring, and incident response through hands-on learning and practical exploration.

EDUCATION

NPR College of Engineering and Technology, Nattam (2025 - 2029) **CGPA - 9.38**
B.E - CSE (Cybersecurity)

Prasiddhi Vidyodaya, Dindigul (2023 - 2025) **Percentage - 73%**

SKILLS

Technical Skills

- Networking Basics
- Cybersecurity concepts
- Python programming (basics)
- C programming (basics)

Tools

- Cyberchef
- Virustotal
- wireshark

Soft Skills

Problem-solving, Documentation, Creativity, Team work

PROJECTS

FIMS - File Integrity Monitoring System

- Frontend - HTML5, CSS, JavaScript

A File Integrity Monitoring System (FIMS) uses SHA-256 hashing to create a unique digital fingerprint of a file. It allows users to verify file authenticity, and any unauthorized modification is instantly detected by comparing hashes.

CERTIFICATIONS

- Introduction to Cybersecurity course from CISCO
